

Frederic H. Parkhurst, Republican, whose home is in Bangor, is the new governor of Maine. His majority over the vote cast for his Democratic opponent was nearly 66,000, the largest plurality ever obtained by a gubernatorial candidate in the history of the state.

COX SAYS PRESS IN WEST IS UNFAIR

Democratic Nominee Complains of Partisanship in Newspapers.

By DAVID LAWRENCE.
Copyright 1920 by Janesville Gazette.
On Board Gov. Cox's Train, Southern California, Sept. 21.—Landing at the state of California for a day with the democratic nominee for the presidency afforded, not merely an opportunity to estimate the warmth and enthusiasm of the crowds, but between stations Gov. Cox talked frankly to the writer about the status of his campaign. The Ohio governor is most disturbed by what seems to him, at any rate, an unfair attitude on the part of many of the newspapers of the West. He said he did not expect the public papers to commend his speeches editorially, or to land him bouquets, but he did expect to share the same criticism as the other candidates. The newspapers in some of the large cities on the coast had deliberately suppressed the news of his speeches, he said.

In one instance the newspapers failed to announce correctly the time of the governor's arrival, or to give any prominence to his coming. Also the governor was advised that one large newspaper never published his speech of acceptance.

The governor said he did not expect the newspapers to print partisan reports in his favor, but he did expect that they would at least give space to the dispatches of the Associated Press and other press associations.

"The most sinister thing I have observed on my western trip," he said, "was the rebellious attitude of the people when they refused to refer to me in any speech to the press. Can it be that the people are losing confidence in the press of the country? As a newspaper profession, and as an American, I think it is a dangerous tendency. For the people of the country expect the press to be fair and to give both parties a square deal. That is the only way to retain confidence in our institutions."

Repeats Cox having been advised by local leaders that very little about his campaign in other states had been published in local cities. He made it a point to repeat many parts of preceding speeches.

His approach to southern California was a continuous reception of the most cordial welcome. Even though he made no speeches on Sunday and the people did not expect any, folks came out in large numbers to greet the democratic nominee.

California is hardly considered a doubtful state by republicans this year, many of whom will not be less than 100,000. But while some of the democrats are inclined to agree with that estimate today, they do not admit it will be the final decision of the state.

Hope of Tide Turning
California can turn the tide down in a week, and the tide is now running up, Gov. Cox en route through California has raised the hopes of his friends that the tide has begun to turn.

The enthusiastic welcome given Gov. Cox in San Francisco by the business men, and at the same time the sympathy of the nation as a whole, has stimulated the hopes of even those democrats who were inclined to despair of the outcome before Gov. Cox got there.

Followers of Hiram Johnson are friendly to Gov. Cox. They see in the Ohio governor a point of similarity to their own idol. Indeed it is whispered that Senator Johnson will confine his disagreement with Cox chiefly to the charge of nations, as he is said to feel keen admiration for the progressive record of the Ohio governor.

Legion Issue in Wry
Several Johnson men told the writer that it was not for the strong fight made by Senator Johnson against the legion as a national issue in this state. Gov. Cox would carry California easily on the issue of progressivism.

Certainly the Johnson supporters are leaning to Cox and some openly characterize Senator Harding as a reactionary. How much of this is due to disappointment over the failure of the republican party at Chicago to select Johnson as standard bearer, and how much it reflects a friendly feeling toward a progressive, is hard to say.

State Is Sullen
Certainly as one travels about the state, observers point to the large republican registration in the primaries and say that there will be a big vote in the senatorial contest but that a surprising number of paid voters will not vote for either Cox or Harding. The people who helped Johnson win the primary vote for the presidential nomination are not likely to hurt the verdict was ignored, and Gov. Cox poured oil on the troubled waters not only by emphasizing that Senator Harding didn't carry any primaries outside of his own state, but that if Senator Johnson had entered the Ohio primaries he would have captured the state's vote.

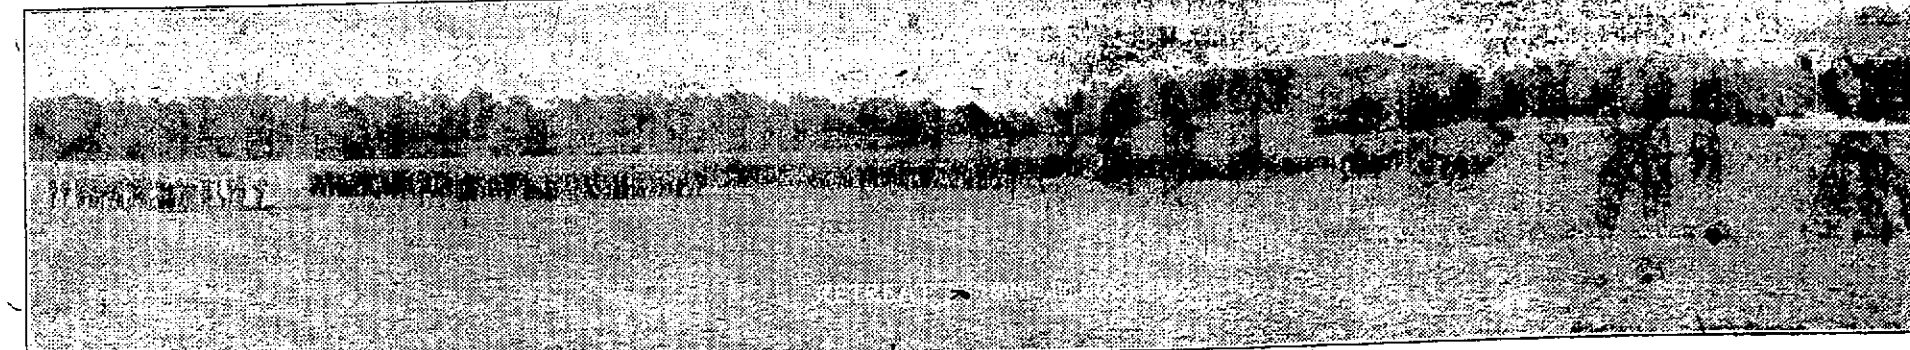

Northern California, with its anti-union of nations sentiment among the Irish as a factor of importance, seems to be at the present moment inclined toward the republican nominee. This state, however, had everybody guessing four years ago and shows some of the same symptoms of uncertainty this year.

EX-HUSBAND WANTED
IN MURDER CASE
Kenosha, Wis., Sept. 21.—Authorities are now looking for the former husband of Harriet Adams, young woman being held in connection with the Pacific murder case. Officials in Clinton, Iowa, and other cities were asked to search for him in the hope that he may be able to shed some light on the mystery. So far it is known he has not been in Kenosha, but it is said that he was jealous of his pretty wife. Harriet Adams again told of her relations with the doctor who owned before a number of employees of the theater. Charges are made by some of those that Mrs. Adams had been friendly with other men in Kenosha, but she maintained that she had no close or personal friend, but Pacific, who told her many times that he loved her.

CAN EMPTY H. S. IN TWO MINUTES
Although there are more in the high school building than ever before and conditions are very much congested, it was emptied in less than two minutes, as was shown last Friday when the fire bell was accidentally pushed. The pupils marched out according to the directions which are on the blackboard of every room and to which Mr. Bassford had called attention that morning at the first convocation. A system has been worked out so that there are a certain number emptying from each exit.

STORIES OF CIVIL WAR ARE RENEWED BY VETS IN INDIANAPOLIS

(By Associated Press.)
Indianapolis, Sept. 21.—Old friendships were to be renewed and stories of the day when they battled for the Union recounted as the principal activities today of the 125th anniversary of the Grand Army of the Republic, which formally opened here yesterday. Eighty regimental and brigade reunions were set for today and tonight the annual camp fire will be held.

Business sessions will not be held until Thursday. The various organizations affiliated with the G. A. R. opened their meetings today.

The organization, at the business session Thursday, will be asked to increase the per capita tax from 10 cents to 15 cents at which figure it has been for 20 years. It was stated that the dwindling membership made the move necessary. The membership of 103,200 in 1918 has declined to 75,000.

Among the notables attending the convocation are Dr. Robert T. Harding, Marion, Ohio, father of Senator Harding, republican presidential nominee, and former Congressman, Washington Gardner, Alhambra, Mich., a former commander-in-chief.

"The old guard of Ohio," its members ranging from 75 to 80 members of age attracted considerable attention last night as, with Springfield rifles shouldered according to the manual of arms of the sixties, they marched to the headquarters. The veterans' headquarters drum corps of Milwaukee also was the subject of much attention.

Activities Begin
AT HIGH SCHOOL
With school now going full swing, the program straightened out and things running in normal condition, activities at the high school will soon be resumed. A large number of girls attended the meeting for the organization of glee clubs last week but the two clubs, one composed of the musical clubs and the other of the older flappers were not organized. They will meet some time this week after school to organize.

The boys' glee club will probably be organized this week. They met Thursday evening last year. Miss Florence Snyder, director of music, is making plans for a big year for musical clubs and will try to make the orchestra a feature.

Miss Callen, director of physical education will start her classes in basketball for girls soon. Other activities along club lines will be started later in the fall.

NEW LIBRARY FOR HIGH SCHOOL PUPILS

Due to the congested condition at the high school, the Junior-Senior club and one of the small rooms on the third floor under the balcony of the gym will be used by the girls. Miss Duell will be librarian, and efforts will be made to have more than 100 books. Current magazines will be subscribed for and issued, the same for the boys. The new library system being used as by the city library and books will be issued to those holding cards.

NO ACTION TAKEN ON BOARD'S REQUEST

No action was taken by the council Monday night upon the request of the board of directors for the new high school. The request was received and placed on file upon resolution of the board. The action will probably be taken at a later meeting when the budget of 1921 expenses is drawn up.

GAS EXPERT WANTS \$69.38 FROM CITY

A total of \$322.50 is asked of 12 Wisconsin cities for representing a gas expert at the two hearings before the railroad commission on the appeal of gas companies to reduce their heating units. The expert, Byron T. Clifford, charges \$50 a day for his work on the case.

The city's share of this total is \$69.38. It was agreed by the mayor and council informally at the time Clifford's plan was suggested that \$50 be set aside as Janesville's share. City Clerk E. J. Sartell has written him to this effect.

NEW COAL BIN TO COST ABOUT \$1,800
Bids will be asked for building a new coal bin in the alley in back of the city hall. It was voted by the council Monday night. Plans for the new bin have been drawn up by Building Inspector J. J. Blair. It will hold about two carloads of coal when completed. It is estimated that the cost will be around \$1,800.

U. S. TO END HAITIEN OCCUPATION SOON AS WORK IS ACHIEVED

Washington, Sept. 21.—The United States "houses" to bring its occupation to an end as soon as the "benevolent purposes" for which this government intervened have been achieved. Secretary Coby declared in a statement today defending the administration's Haitian policy recently attacked by Senator Harding, republican presidential nominee. The work undertaken in Haiti under treaty agreements with the native government, the secretary added, already "is nearing completion."

Asserting that as a result of American occupation Haitian revenues were "greatly improved" and there had been notable progress in road construction and other development, Secretary Coby declared that with the exception of a few pockets of selfish and interested agitation, credit and gratitude are freely expressed to the government from every quarter in Haiti.

"The course of this country in Haiti," the secretary added, "has been moderate and dictated only by the desire to meet its duties and not in any degree to go beyond them. Had less been done, this country would have been guilty of a deviation of duty and might have been exposed to sound criticism."

GAS COMPANY ASKS \$96.80 FROM CITY

Claiming that employees of the city broke a gas main on Mineral Point avenue near Madison street, the New Gas Light company has presented a bill to the city for \$96.80. Road to the council last night. It was laid over two weeks for investigation.

The company alleges 60,000 cubic feet of gas escaped, \$50 for labor for repairing the main, \$29.60, and materials, \$17.20.

NEW MOTOR PLANT IN FLINT, MICH.

Flint, Mich., will add another industrial plant to the city on November 15th, when the Dor Motor Car Co.'s new plant will be opened and ready for operation. It covers 77 acres and will cost completed \$2,500,000. All the machinery will be driven by motor or direct. It will require a thousand additional men to operate the plant.

SCHOOL BOILERS IN GOOD CONDITION

Six boilers in five of the city's school buildings have been tested by the Travelers' Indemnity company of Hartford, Conn., and found to be in condition to stand certain pressures. They were inspected August 26 and 27 by E. A. Jensen.

The report on the inspection was received and placed on file by the council Monday night. It shows one boiler in the high school can stand a pressure of 50 lbs per square inch. The other high school boiler and the one in the Adams, 25 pounds. These boilers are all 15 feet by 54 inches.

When plans for the boiler in the city hall will arrive, no one seems to know.

"Unless something happens pretty quick we'll be heating the city hall with oil stoves this winter," Ald. J. J. Dullin said last night in urging action.

NEW EQUIPMENT FOR FIRE POLICE

Purchase of new equipment for the newly organized Janesville fire police consisting of 10 rubber coats and hats were ordered by the council Monday night upon resolution of Ald. E. J. Kelly following a request from that organization. The coats are black rubber tarpaulins, each 18x16, and cap black rubber tarpaulins, 10x20, also ordered.

Names of four new members of the organization were announced as follows: James Worthington, E. C. Bohman, R. L. Morse and John W. Williams.

The request for equipment was signed by Ben W. Smith, captain, and Henry Willman, secretary. A new clock was ordered installed in the East Side station.

SCIENTIST SEARCHES OCEAN FOR RARE SPAWNING EELS

Cardiff, Wales.—Dr. Johannes Schmidt, a Danish scientist, is searching the Atlantic between the Azores and the West Indies for spawning fresh water eels, which the eye of man has never seen.

This announcement was made by Dr. W. A. Heddemann, professor of oceanography at Liverpool University, in his presidential address before the annual conference of the British Association.

"All the eels of the streams and lakes of northwestern Europe," Dr. Heddemann said, "live and feed and grow under our eyes without reproducing their kind—no spawning eels have ever been seen. After living for years in immaturity, at last near the end of their lives the large male and female yellow eels undergo a change in appearance and nature. They acquire a silvery color and their eyes enlarge, and in this bridal attire they commence the long journey which ends in marriage, reproduction and death."

"They migrate in the autumn to the coast, from the inshore seas to the open ocean and still westward and south to the mid-Atlantic, and we know not how much farther for the exact locality and manner of spawning have still to be discovered. The youngest known stage of the lampreys, the larval stage of eels, have been found by Dr. Schmidt to the west of the Azores, where the water is over 2,000 fathoms in depth. These were about one-third of an inch in length and were probably not long hatched. Now Dr. Schmidt is traversing the Atlantic with the hope of finding the missing link in the chain, the actual spawning fresh water eel, in the intermediate waters somewhere above the abysses of the ocean."

ACCIDENT VICTIM HOME THIS WEEK

Miss Charlotte Prichard, South Main street, who was injured last week in a street car accident, which occurred on Milwaukee's hill on Eastern avenue is still confined to the hospital for the blind where she was taken following the accident. She is now able to be around and will return to her home this week.

WOULD HAVE ALL LICENSES EXPIRE JUNE 30, NEW PLAN

An ordinance which would systematize the issuance of city licenses by making all of them expire on June 30 each year, was introduced by Ald. J. J. Dullin and given two readings at the council meeting Monday night. It was laid over two weeks for his third reading which will be placed upon final passage.

As the case is now, licenses expire at various times through the year making it difficult to keep a check on them and adding confusion to work of the city clerk's office. Licenses secured after that date would be sold for cash.

Eleven licenses were issued by the council Monday night, as follows: Building contractors—Willis & Dugan, Van Pool Bros. J. J. Ege Roofing Co., A. Sumner, John Keating and W. J. Bull; electrical contractors—W. G. Ziegler, E. L. Carpenter, M. A. Joseph, Jung Electric Service Co., taxi drivers—George Makas.

A permit to excavate in the street was given Robert H. Simpson.

INDIANS GET DRUNK ON FEAST DAYS
San Diego.—Agitation in favor of rigorous enforcement of regulations governing the sale of intoxicants and for additional measures of control has been growing recently in Chile.

A campaign has been started to make the Araucanian Indian reserve of Cholchol "dry" following a petition to the government from residents in the district alleging violations of the existing laws which prohibit the sale of alcoholic drinks on feast days and by persons without license. The petitioners declare peddlers visit the Indians on holidays and during their traditional fiestas, trade liquor for blankets, fowls and cereals with the result that the feast degenerates into drunken brawls and much disorder.

Movements also have been started by workers in the nitrate and coal fields in favor of prohibiting the sale of liquor on pay days.

Watch for the Rexall Racing Pigeon Flight Saturday morning next at Smith's Pharmacy.

COSTS \$60,000 TO PAVE CENTER AVE.

Council Orders Payment of Contractors for Street Asphalt Street.

Actual cost of paving Center avenue with asphalt from Center street to the Monterey bridge was \$60,415.38, according to the final report of the board of public works received by the council at its meeting Monday night. Of this amount, the city pays \$25,815.70 and the property owners, \$34,599.68.

Payment of the city's share to the White Construction company was ordered. Property owners will pay either in cash or over a 10-year period through a bond issue.

The report shows the cost divided as follows:
Public yards excavation @ \$1.50—\$5,368.50.
12,995 square yards paving @ \$3.60—\$47,394.37.
To 400 lineal feet curb and gutter @ \$1—\$1,000.
3,540 lineal feet integral curb @ \$4.50—\$15,930.
8 feet plain curb @ \$3.35—\$26,641.
74 hours use city's road roller @ \$2—\$148.
Inspection, J. H. Cate and E. M. Barchus 19 days @ \$5.50—\$104.50; and Chicago Paving Laboratory, inspection, \$287.35.
The city's share will be paid as follows: From the highway fund, \$22,518.93 and from general fund, \$3,296.77.

NEW ACCOUNTING SYSTEM FOR CITY

Council at Sartell's Request Orders New Plan of Bookkeeping.

A new system of bookkeeping and cost accounting will be installed at once in the offices of the city clerk and city treasurer. It was decided unanimously by the council in regular meeting Monday night that the cost will be about \$300. It is estimated.

A plan for the new system was made by city clerk E. J. Sartell who made over the problem carefully during the present system is so antiquated that it is practically impossible to tell how much various city departments are costing. It is said he believes the change is necessary.

Former clerk Taylor L. Letters endorsing the plan were read as written by four former clerks A. E. Barker, Roy Cummings, Victor E. Hemming and J. E. McNe. All declared the new system a necessity with the growth of the city and the consequent increase in the volume of work for the clerk and treasurer.

The only councilman who questioned the advisability of spending money for a new system but he voted "Aye" when the question was put.

Gray and Herch Talk.

Superior, H. A. Kerich and City Engineer C. V. Kerich both spoke in favor of the change. The mayor said the present system is too old. The system to be installed will be similar to that used by the city water department. It will be put in by W. E. Sartell, former clerk of the city, who installed the present system of accounting five years ago.

FONDY TEAM DEFIES LOCAL BASKET TEAMS

Asking, "Janesville, Where's Your Pep?" the "Menzies" of Fond du Lac issue a challenge to any 125-pound basketball team here. While they are a little early in the season, here's their letter:

"The Menzies Specialists, Fond du Lac, challenge any 125-lb. basketball team in the vicinity of Janesville to a game to be played in Janesville and a return game in Fond du Lac. The Menzies Specialists are backed by the Menzies Shoe Co. and can accept any financial terms that your team may desire.

"We assure good clean sport, good officials and a good floor to play on. Please let me hear from you at once and outline.

Fond du Lac, Wis.

GARFIELD'S FORTUIT TO ST. MARY'S TEAM

By walking off the field in the seventh inning, Garfield school forfeited to St. Mary's 9 to 0 at Court House park Monday afternoon before a crowd of more than 100. The score was 6 to 5 at the time. The lineup:

Garfield: Farris, c; Nightingale, p; Me Dermott, p; Grosvenor, ss; Doan, 2b; Pangel, 2b; Redner, 3b; Marshall, cf; O'Mara, rf.

St. Mary's: Farris, c; Nightingale, p; Me Dermott, p; Grosvenor, ss; Doan, 2b; Pangel, 2b; Redner, 3b; Marshall, cf; O'Mara, rf.

Miss Lake—Two small Indian boys, 12 and 14 years of age, who are thought to have been stolen from the depot and ears on both the Soo and Ontario railways, were brought before the district attorney and accused with the thefts. The boys said that their mother had run away from home and left them and that they were in search of her. They gave her name as "Dora."

News Notes From Movieland
BY DAISY DEAN

"Look, I made these all myself," seems to be the motto of Phillips in saying, "Miss Phillips, who claims she ought to know how to cook, for isn't she 'an old married woman'?" To which her husband, Alvin, replies, "I answered that she 'sure is' both a married woman and a good cook."

"There's art, even in cooking," said Miss Phillips, "but I think I prefer the art of acting."

It is plain to be seen, however, that Miss Phillips did not learn to act on a motion picture set or in a kitchen scene in one of her plays. Her actions are too realistic and skillful and she proves convincingly that she is far from ignorant of the range.

COSTELLO PLAYS ITALIAN ROMANCE
Maurice Costello, the popular star of many of the early screen successes, has the role of a half-breed trapper in the forthcoming Scenic picture, "Wilderness Bear."

HE MENDS HIS WAY
"Never again will motion picture fans see Jack Holt in the role of the villain, for he has just signed a long-term contract with the Famous-Lasky in which there is a clause specifically stipulating that he shall not be cast as a 'heavy.' Jack much prefers to be the hero."

FLORA FINCH RETURNS
The dean of the one and only Flora Finch, returns in a stellar role, bigger and better than ever, under the banner of the new "Flora Finch Pictures Corporation," a recent New York state corporation.

The new company is specially organized to provide pictures featuring the only remaining star of the "snare fire" comedy days of film, when Flora Finch and John Bunny played opposite each other and reigned supreme in the hearts of the movie fans all the way around the world.

A series of six-act comedies is in preparation. It is announced that "Shooting" has already begun. In fact, it will under way, on the first of the series.

"BUNTY" CHOSEN
Feature Joy is to be "Bunty in the Stripes," which is to go into production immediately at the Goldwyn studio in Culver city. Scores of actresses were considered for the delectable role before it was decided that Miss Joy was the one best suited for it. Reginald Barker is to direct the production, and in addition to Miss Joy, those in the cast will be Gail Landis, Edythe Chapman, Josephine Crowell, Russell Simpson, Raymond Hatton and Casson Ferguson. The play is to be given an elaborate production featuring being the construction of a street of a Scotch village.

BRITISH CHAMPION BEATS AMERICANS

George Duncan, the veteran British professional golfer, won the British open golf championship held recently at Deal, England, defeating among others the two American golfers, Jim Barnes and Walter Hagen.

BIG SQUAD OUT FOR FOOTBALL

Further assurance that Janesville is going to have a city football team this season were given when more than 25 prospects turned out for practice at the fall grounds for Monday evening. While no work-out was tried, George Perring, manager of athletics of the Samson plant and the unanimous choice as manager of the football proposition, and Ralph Cairn, Minnesota star, talked the plans over with the men.

Enthusiasm runs high. From Monday's meeting and applications that are being received by Perring today, staid what experience the men have had. It looks as if Janesville is harboring quite a number of ex-college cracks who should make lots of good material.

Arranging Schedule
The officials having football for the city in charge will have a meeting today to further discuss the situation and take steps for scheduling games. Fairbanks-Jones of Beloit have been keeping two dates, Nov. 7 and 21, open with expectations that Janesville will organize an eleven.

Announcement will be made when further practice will be held. Equipment has already been ordered.

BELOIT-JANESVILLE-MADISON GOLF MATCH

Members of the Janesville, Beloit, and Madison Rotary clubs will convene in a three-cornered golf match to be held at Beloit today. Play will take place on the links of the Beloit Country club.

7-PASSENGER CAR IS STOLEN HERE

Frank Douglas Studebaker Taken from Milwaukee Street—Police Have Clue.

A seven-passenger Studebaker touring car owned by Frank Douglas Studebaker, hardware dealer, was stolen from its parking place at 21 West Milwaukee street between 9 and 10 o'clock Monday night. Police have notified authorities in Beloit, Evansville, Madison, Monroe, Milwaukee, Rockford and Chicago.

The machine is a 1915 model, license tag 36710, and engine number 650695. It is equipped with good tires all around and spare in back. The two rear fenders are bent. When stolen, a woman's fur and a black robe were in the back seat.

PARTY PLATFORMS FRAMED IN MADISON

(Continued from page 1.)

cause he had supported Sen. Wilcox in 1918. Elaine had a candidate in Dwight Parker, of Pennsylvania.

A Real Republican Platform

It was the purpose of the men who did not believe that Elaine was a real republican to make a platform that would either tie him to the national candidates and the platform of the Chicago convention with such a structure on the radical elements back of him, including denunciation of the nonpartisan league leaders, that he would either have to repudiate Harding and Coolidge or Townley and his organizers.

In the caucus this was given support by a stand led by William J. Morgan. It was opposed by others as candidates who said a drastic condemnation of the league would jeopardize their success and elect socialism. That is, that the nonpartisan league would go to the socialist. It took four hours to finally determine on nothing definite. A committee was appointed to draft a program of procedure for the convention which went into session at noon and to present a draft of resolutions which might be acceptable to the candidates who have said that a committee is made up of Messrs. Skogmo, Bird, Perry and Moran.

FAIR WEATHER FRIENDS DESERT "WIZARD'S" WIFE

Mrs. Charles Ponzi.

That her fair weather friends have deserted her is the plaint of Mrs. Charles Ponzi, wife of the Boston "wizard" who promised investors fifty per cent in ninety days. "I am penniless and without friends, but, thank God, I am strong and can work," said Mrs. Ponzi when her motor cars were taken from her and she was ordered to turn over to the authorities her beautiful home.

BILLY WHISKER

The one peep Billy Jr. and Stubby took at the cave, nearly cost Stubby his life, for just as he had crawled to the very brink and was looking down, down, down into the very bowels of the earth where lava was boiling and steam hissing, an extra whiff of sulphur arose, ninety days, "I am penniless and without friends, but, thank God, I am strong and can work," said Mrs. Ponzi when her motor cars were taken from her and she was ordered to turn over to the authorities her beautiful home.

It took Stubby a long while to come to and when he did so he found his poor little torn and bleeding feet as well as his nose resting in the cool sands of a little stream, and all he had to do, if he wanted a drink was to stick out his tongue and let the water run through his mouth.

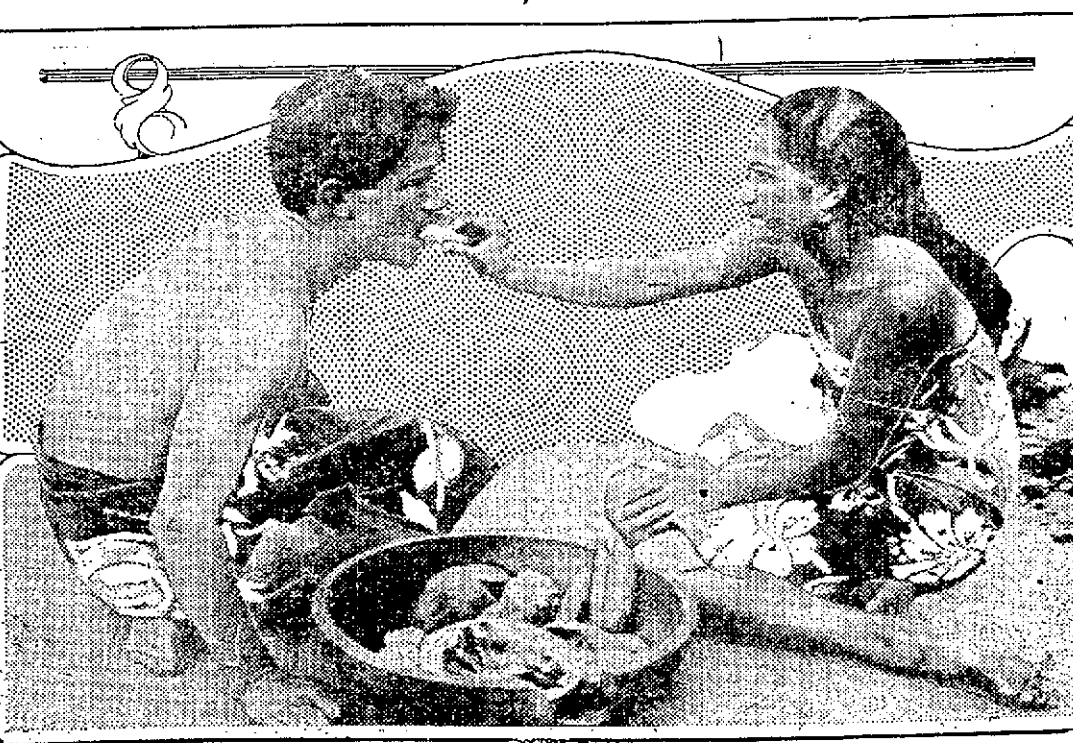

"Well, Stubby, are you feeling better?" he heard Billy say when he tried to open his eyes to see where he was.

"How in the world did I get here? Can you tell me that? For I had given up the idea of ever getting off that hot volcano again."

"Indeed, I can, for I carried you every step of the way in my mouth and when I got here I thought every tooth in my head would drop out, and instead of this little weight dog I started with, I thought I was carrying an elephant, you got so heavy."

"Billy, old fellow, you are a brick. That's what you are," was all right, and noting that this little stream flowed toward the west, they followed it for two reasons. One, be-

Rapa, Lonely Little Island in South Seas, Is Paradise for Men

Rapa woman feeding a man to win him for a husband.

Men are in such great demand in the lonely South sea isle of Rapa that the women invent ways of serving them so as to

win them for husbands. Feeding men, as illustrated here, is one of the common methods employed by the feminine charmers

of Rapa. There are 150 women on the island and only twenty men. The island gets its mail only once in two years.

Talks on Citizenship

By D. O. KINSMAN, Ph. D. Professor of Economics, Lawrence College and Educational Director of Wisconsin Society for Civic and Economic Education.

Questions of general interest pertaining to civics and economics will be answered in these columns. When space will not permit, letters will be personally answered, subject to proper limitation, and when a stamped address is enclosed. Address communications to Professor D. O. Kinsman, Lawrence College, Appleton, Wisconsin.

We are all aware that our political parties are very active in these days. This is quite proper, since the parties are organized primarily for the purpose of nominating and electing candidates to office. Each party has its national, state, county and local organization that it may do this work effectively.

If the people are to be fairly represented in our republic, the voters must have a very direct control over the selection of nominees for office. If a party "boss" or some special interest is able to select the candidates on each ticket, it makes little difference which candidate is chosen on election day. The boss or the special interest will doubtless be favored at the expense of the public good.

Two methods have been and are still being employed for the purpose of nominating candidates. One is called the caucus and convention system and the other the primary election. Since our state primary is to be held next Tuesday, it may be of special interest to present a few of its characteristic features this week.

It has been claimed that the caucus and convention affords great opportunity for the boss or the special interest to dictate party nominations—to put through a "prearranged" slate. As a consequence, Wisconsin and a number of other states have adopted the primary election system for the nomination of candidates.

Any person wishing to be nominated for office secures a certain number of signatures to a petition. The number is so small that it is easy to meet the requirements. The petition is filed with the clerk of the political unit in which the office is to be elected at a certain number of days before the primary election. For example, candidates for state offices must file their petition with the secretary of state, those for county offices with the county clerk, and those for city offices with the city clerk. The clerk then prints the primary ballots. There is one ballot for each political party. This ballot has printed upon it the names of the offices to be filled and the names of the candidates for each office. The party ballots are of the same size and fastened together at the top. Each ballot is perforated near the upper end so that it can be easily torn out.

Our primary election day, which is the first Tuesday in September—next Tuesday—after voters go to the polls. Upon entering the polling place, each voter is given a ballot for each political party. This ballot has printed upon it the names of the offices to be filled and the names of the candidates for each office. The party ballots are of the same size and fastened together at the top. Each ballot is perforated near the upper end so that it can be easily torn out.

ANNOUNCE H. S. FOOTBALL GAMES; TEAM LOOKS FAST

Six games and two open dates are on the schedule of the Janesville high school football team announced today. The season opens a week from Saturday—October 2—with a game at Port Atkinson against the Port high school. It closes on Nov. 25, although the last game played to date is on Nov. 20 with Beloit at Beloit.

Here's the schedule:
Oct. 2—Port Atkinson at Port Atkinson.
Oct. 9—Edgerton at Janesville.
Oct. 16—Monroe at Monroe.
Oct. 23—Bellevue at Janesville.
Oct. 30—Bellevue at Bellevue.
Nov. 6—Open.
Nov. 13—Open.
Nov. 20—Beloit at Beloit.
Nov. 27—Open.

Hard Training
Coach Reyner has been putting the football aspirants through a week of the most rigorous preliminary training, working mainly on sprints and mass dashes. No tackling or scrimmaging has yet been done. While all around the year has been tough at Fourth Ward park, some practice will start tonight at the fair grounds. Tackling will start this week with scrimmaging coming in its own order.

Players Are Striking
More players have been out for the team this year than for many seasons. The outlook is especially good because of the fact that enough still remain to make more than two teams. In fact, the second line men dropped out merely because they did not get a place on the first team. When they did so they were school spirit and loyalty in the wind, forgetting that unless there is a second team, the first squad gets no work-out except in actual games.

To overcome this, Coach Reyner does not plan to name a first team until the day arrives for the first game. Moreover, Janesville will start this year with the second team to make it more interesting for them.

Speed to Feature
While the team looks somewhat light this year, it is somewhat faster than last year. It may come up to about 145 pounds. However, nothing can be certain until tackling and scrimmaging starts. It may result in some of the men losing their chances to remain on the squad. There are several heavy players among the aspirants, but they are not in the game. Nevertheless, they have as good as chance as any other on the eleven.

Speed Work
Janesville's strong hold, end runs may be the feature of their play. School spirit good.

Captain, who has been out for the team because of illness. There are only two of last year's letter men back, Criddle and Smith. Criddle is a very indication points to a more enthusiastic school spirit this season which may result in a better team than before. The work of the squad is being built up on a solid foundation as the first game nears, the student body takes a more lively interest. It is hoped they will continue throughout the season. In any case, how the luck of the team turns.

CITY LEAGUE GAMES LAST UNTIL APRIL 6; ANNOUNCE SCHEDULE

Official schedule of the City Bowling League, composed of eight teams, was made public today. The season starts Wednesday night and continues to April 6 with all games being played on Wednesday nights. No games will be played on holidays.

Both the West and East Side leagues will be used, with two games being played at each place on each night. To facilitate play, the alleys used are designated before the games. Any practicing done before the games must not be on the alleys to be used by that team for that night.

Four famous treatments for improving your skin

DO YOU ever feel dissatisfied with your appearance—wish this or that were different, and long to change it?

One thing you can change—and that is your skin.

Any girl can improve her appearance by *improving her complexion*. With the right care you can make your skin so lovely in its softness, its smooth, fine texture and brilliant color, that it will outweigh almost any other advantage you could possess.

Remember that *your skin changes in spite of you*. Each day old skin dies, and new skin takes its place. No matter what defects your complexion has suffered from in the past—by regular treatment you can give *this new skin* the loveliness and charm it should have.

Read the four treatments given on this page. Each one of them tells you some special way of improving your complexion. If your skin is too oily—you can make it smoother and drier by using the famous Woodbury treatment given here. If you are troubled with blemishes—with conspicuous nose pores—use the special treatment indicated for your condition, and see how quickly your skin gains the clearness it has lacked. Is your com-

plexion pale and sallow? By the new steam treatment you can make it glow with radiant color.

Don't neglect your skin—begin today to make it as smooth, clear, and flawless as it should be. In the famous booklet wrapped around each cake of Woodbury's Facial Soap, you will find not only the four treatments given here—but additional treatments for all the commoner skin troubles. Find the treatment your individual type of skin demands, and begin using it tonight.

The very first treatment with Woodbury's will leave your skin with a slightly *drawn, tight feeling*. This only means that your skin is responding to a more thorough and stimulating kind of cleansing than it has been accustomed to. After a few treatments this drawn sensation will disappear, and your skin will emerge with such a soft, clean, healthful feeling, that you will never again want to use any other method of cleansing your face.

Woodbury's Facial Soap is on sale at all drug stores and toilet goods counters in the United States and Canada. The famous booklet of treatments is wrapped around each cake. Get a cake today and begin *your treatment* tonight. A 25-cent cake lasts for a month or six weeks of any treatment or for general cleansing use.

Sample cake of soap, booklet of famous treatments, and samples of Woodbury's Facial Powder, Facial Cream and Cold Cream sent to you for 15 cents.

For 6 cents, we will send you a trial size cake (enough for a week or ten days of any Woodbury treatment) together with the booklet of treatments, "A Skin You Love to Touch." Or for 15 cents we will send you the treatment booklet and samples of Woodbury's Facial Soap, Facial Powder, Facial Cream and Cold Cream. Address The Andrew Jergens Co., 333 Spring Grove Avenue, Cincinnati, Ohio.

If you live in Canada, address The Andrew Jergens Co., Limited, 333 Sherbrooke St., Perth, Ontario.

CONSPICUOUS NOSE PORES

How to reduce them

Dip a cloth in very hot water; lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in very gently a fresh lather of Woodbury's. Repeat this hot water and lather application several times, stopping at once if your nose feels sensitive. Finish by rubbing the nose for thirty seconds with a lump of ice.

Do not expect to change in a week a condition resulting from long neglect. But use this treatment persistently, and it will gradually reduce the enlarged pores until they are inconspicuous.

The booklet containing the famous Woodbury treatments for all the commoner skin troubles, is wrapped around each cake of Woodbury's Facial Soap. Find the treatment for your skin—begin using it tonight.

SKIN BLEMISHES— *How to get rid of them*

Just before retiring, wash in your usual way with warm water and Woodbury's Facial Soap and then dry your face. Now dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy, cream-like lather. Cover each blemish with a thick coat of this soap cream and leave it on for ten minutes. Then rinse very carefully, first with clear, hot water, then with cold.

The regular use of Woodbury's in cleansing your skin will discourage the tendency for new blemishes to form.

PALE, SALLOW SKINS— *The new steam treatment for them*

One or two nights a week, fill your wash bowl full of hot water—almost boiling hot. Bend over the top of the bowl and cover your head and the basin with a heavy bath towel, so that no steam can escape. Steam your face for thirty seconds.

Now lather a hot cloth with Woodbury's Facial Soap. With this, wash your face thoroughly, rubbing the lather well into the skin, with an upward and outward motion. Then rinse the skin well, first with warm water, then with cold, and finish by rubbing it for thirty seconds with a piece of ice.

The other nights of the week, wash your face thoroughly in the Woodbury way, with Woodbury's Facial Soap and warm water, finishing with a dash of cold water.

The very first time you use this treatment your skin will gain in loveliness and color.

OILY SKINS— *How to correct them*

First cleanse your skin thoroughly by washing it in your usual way with Woodbury's Facial Soap and warm water. Wipe off the surplus moisture, but leave the skin slightly damp. Now with warm water work up a heavy lather of Woodbury's Facial Soap in your hands. Apply it to your face and rub it into the pores thoroughly—always with an upward and outward motion. Rinse with warm water, then with cold—the colder the better. If possible, rub your face for a few minutes with a piece of ice.

This treatment will make your skin fresher and clearer the first time you use it. Make it a nightly habit, and before long you will see a marked improvement—a promise of that lovelier complexion which the steady use of Woodbury's always brings.
